**Research Study on the  
Psychology of Political Belief**

- Are you between 18 and 75 years old?
- Are you in good health?
- Do you support President Bush, his policies, and his party?

If your answer to these questions is "yes", we invite you to participate in a six month research study on the psychology of political conviction.

Please contact 206-543-3750 (ext. 395) and set up an appointment for an evaluation session with a trained specialist. Participants chosen for the study will be entitled to a weekly stipend and free medication and/or talk therapy.

With financial support from the [Republican Benevolence Committee](#)
